Renovation Update
September 30, 2011

We have accomplished much since we began our Renovation Campaign in July, 2008. Projects completed include:

- **Repainting and cleaning of church interior, repairs to woodwork**
- **New clear pane insulated side windows in the church**
- **New pews, chairs and carpeting**
- **New hardwood floor for altar**
- **Insulation for the church roof**
- **Tiled baptismal area and new baptismal font**
- **New high efficiency boilers for the church with programmable thermostats**
- **Fire alarm system for the church and student center, and a fire suppression sprinkler system for the church basement**
- **Improved lighting in the sacristy and baptimal area**

Total Renovation Monies Collected:	**$245,779.**
Total Renovation Expenditures:	**$254,569.**
Total Monies Left to Fundraise:	**$ 8,790.**

As soon as we finish collecting the outstanding pledges for this portion of the renovation, we will begin to focus on other renovation projects, including replacing the boiler in the Catholic Student Center.

Thanks for all of your support during the Renovation drive, it has been a tremendous success! And special thanks to parishioner Jeff Kimball for continuing to help us track Renovation drive donations and outstanding pledges. Great job, Jeff!
